

CAPABILITY STATEMENT

COMPANY OVERVIEW

TEJ Engineering newly founded in 2023 and quickly becoming a highly regarded service provider in the Construction, Manufacturing, and Mining industries. Our commitment to excellence and the relentless pursuit of service superiority in Structural, Mechanical, and Piping solutions sets us apart.

At TEJ Engineering, we pride ourselves on our adept team, comprised of highly skilled and adaptable professionals and Tradesman who embody our core ethos: achieving perfection with a "no rework" approach.

We employ meticulously planned methodologies, drawing from the best practices in the industry, to execute projects with unparalleled efficiency, enabling our clients to meet their targets promptly. From project inception to completion, TEJ Engineering hits the ground running, ensuring seamless execution and client satisfaction.

Central to our success is our core leadership team, which boasts expertise across structural, mechanical, piping, and crane operations. Each member of our leadership team brings invaluable experience and insight, guiding our handpicked teams to deliver exceptional results on every project.

TEJ SAFE

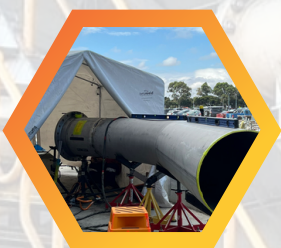

At TEJ, safety is not just a priority, it's our core value. As industry leaders, we are committed to providing a safe and secure workplace environment for our employees.

Our dedication to safety extends beyond mere compliance, it's a fundamental aspect of how we operate. We continuously invest in our people, and resources to identify and mitigate potential risks, ensuring the well-being of our team members and the success of every project we undertake. At TEJ Safe, safety isn't just a goal.

"It is our unwavering commitment"
