ENGINEERING

About TEJ

TEJ Engineering was founded in response to the industry's ongoing challenges, poor quality, missed deadlines, and cost overruns that put pressure on clients and projects. We saw a gap, and we set out to change the standard.

Our roots in this industry run deep. Generations before us dedicated their lives to building, fabricating, and problem-solving, and now it's our turn to carry that legacy forward.

What sets us apart is our commitment to accountability. We believe that when a team takes ownership of its work, it creates a culture of trust, reliability, and excellence, something we take immense pride in.

Since launching in 2023, we have built a highly skilled and dedicated team, focused on delivering precision, efficiency, and quality in every project. Our goal is simple

"To provide solutions that keep projects on track, on budget, and executed to the highest standards".

Industries We Serve

Mining & Resources

SUPPORTING SHUTDOWNS, MAINTENANCE, AND CONSTRUCTION PROJECTS FOR MAJOR MINING OPERATIONS.

Oil & Gas

PROVIDING HIGH-QUALITY FABRICATION, INSTALLATION, AND MAINTENANCE SOLUTIONS FOR UPSTREAM AND DOWNSTREAM FACILITIES.

Infrastructure & Heavy Industry

DELIVERING STRUCTURAL STEEL, MECHANICAL INSTALLATIONS, AND PIPING SOLUTIONS FOR LARGE-SCALE INFRASTRUCTURE PROJECTS.

Marine & Offshore

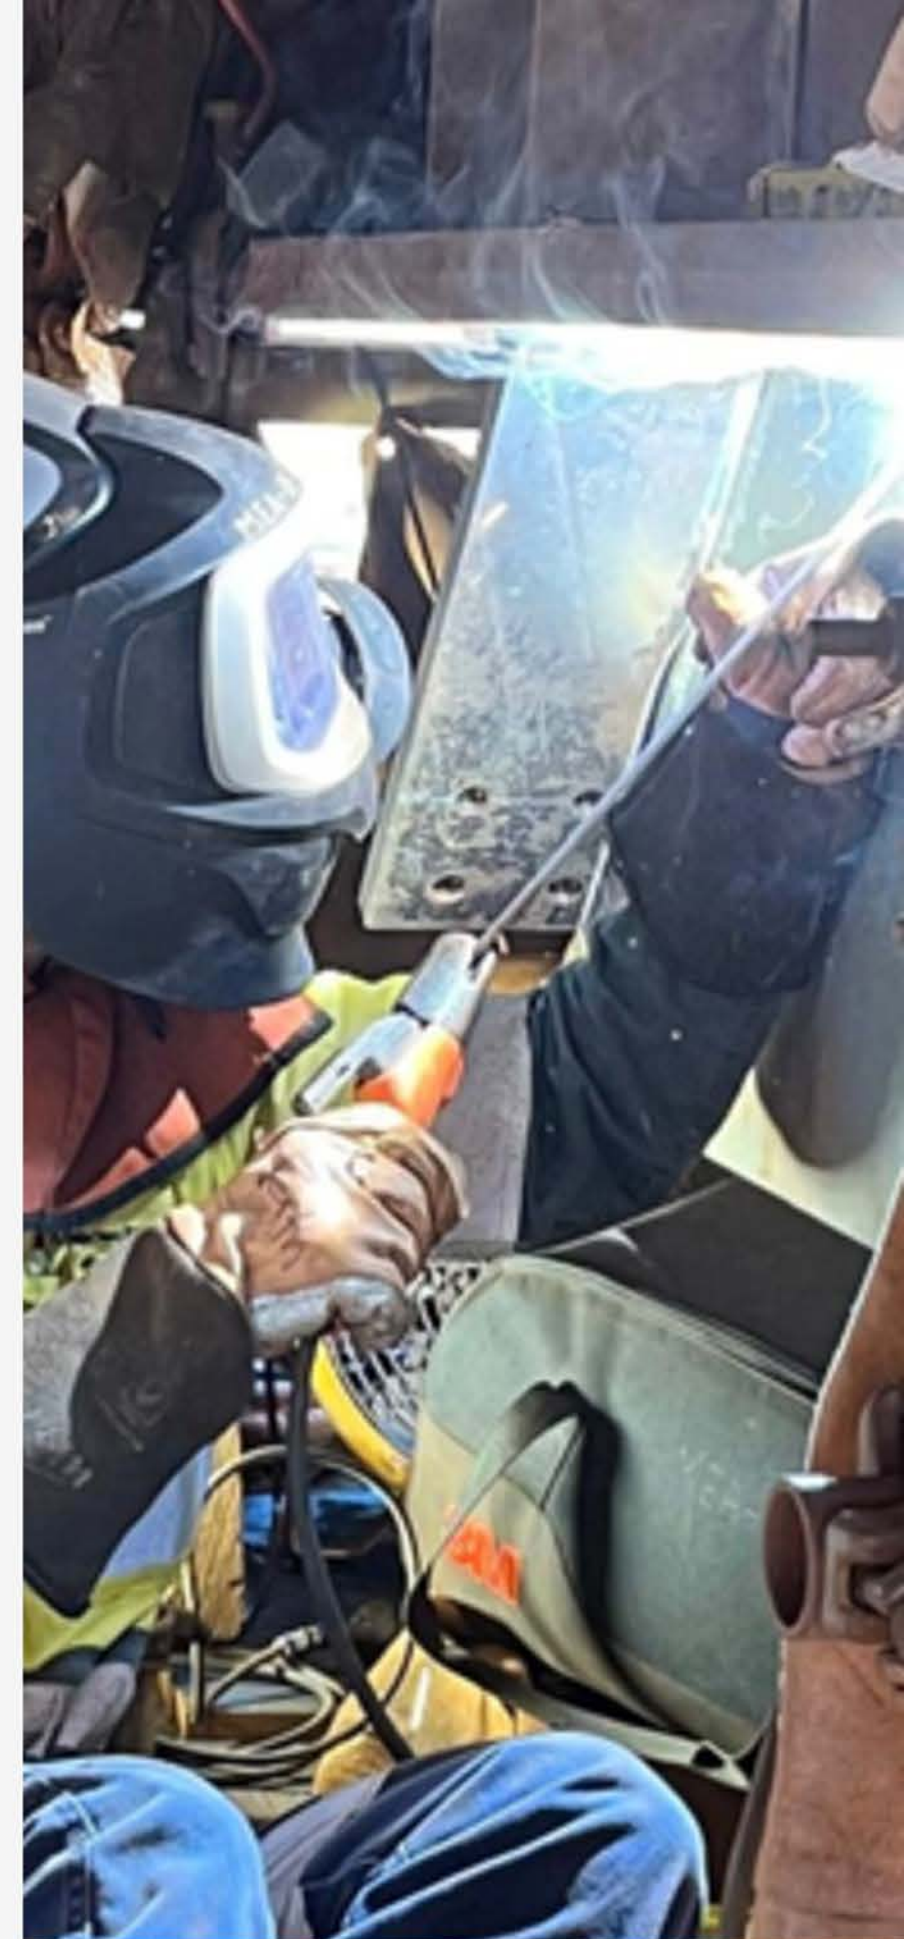

CONDUCTING FABRICATION, WELDING, AND MECHANICAL SERVICES FOR SHIPYARDS, PORTS, AND OFFSHORE FACILITIES.

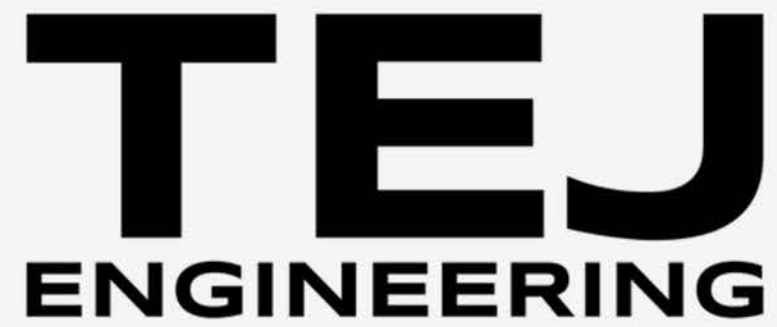

Construction & Industrial Projects

PROVIDING END-TO-END ENGINEERING SUPPORT FOR LARGE COMMERCIAL AND INDUSTRIAL DEVELOPMENTS.

CORE VALUES

At TEJ Engineering, we operate as ONE TEAM, united by a commitment to SAFETY, QUALITY, and ACCOUNTABILITY. We foster a culture where safety is non-negotiable, quality is embedded in everything we do, and accountability drives our performance ensuring that every project is delivered with precision, integrity, and excellence.

QUALITY MANAGMENT SYSTEM

TEJ Engineering is dedicated to maintaining its ISO accreditation, ensuring the highest standards in quality, safety, and environmental management for sustainable and compliant operations.

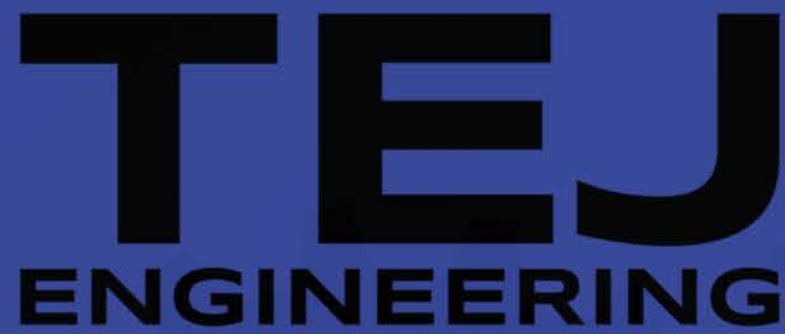

ISO 45001 OHS

ISO 9001 QUALITY

ISO 14001 ENVIRONMENTAL

Our Services

SMP CONSTRUCTION

Structural, Mechanical and piping fabrication and installation services

PROJECT & CONSTRUCTION MANAGEMENT

Efficient project and construction management ensuring quality, on-time delivery, and cost-effective execution.

LABOUR HIRE

Reliable labour hire solutions providing skilled professionals and blue-collar workers to meet demands efficiently and safely.

SHUTDOWNS

Fast, reliable teams dedicated to extending the life of plant and machinery, reducing downtime, and increasing productivity.

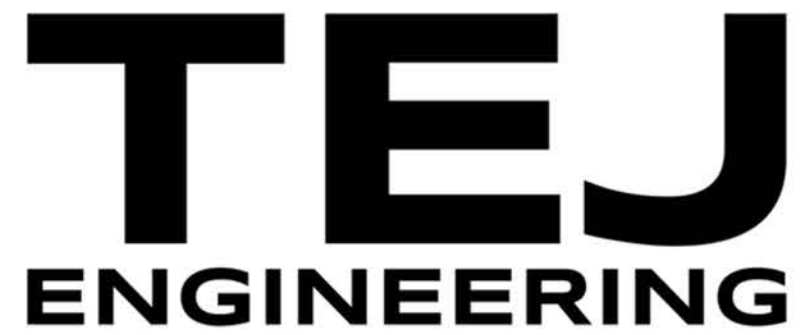

ENGINEERING

Innovative and precise engineering solutions that enhance reliability, optimise performance, and drive project success.

NDT

We offer Non-Destructive Testing (NDT) services to ensure structural integrity and compliance without compromising the material being inspected

SMP CONSTRUCTION

Structural Steel

Precision Fabrication
Platforms, walkways, handrails
Installation of all structural steel

Mechanical

Installation and Alignment of
mechanical equipment
Crushers, Conveyors, Chutes
and Rotating machinery.

Commissioning pumps,
motors, gearboxes and process
equipment

Shutdown maintenance,
refurbishment and
replacement

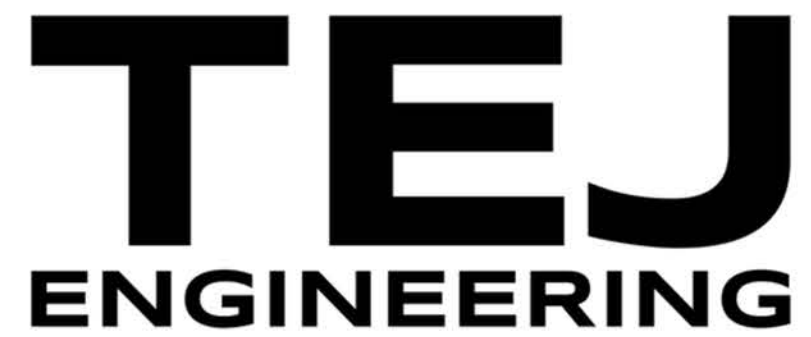

Piping

Pre-fabrication of piping spools
in Carbon steel, stainless steel,
HDPE and exotic alloys

Pressure welding and pipeline
welding

Onsite installation of process
piping for mining, oil & gas and
industrial facilities.

PROJECT & CONSTRUCTION MANAGEMENT

End-to-End Project Oversight

Proactive Problem-Solving

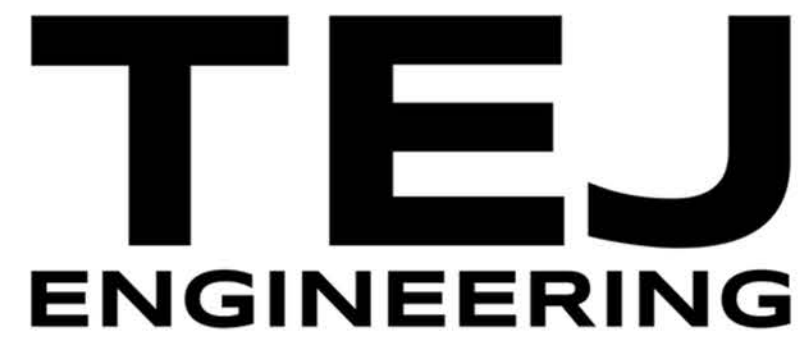

Integrated Supply & Logistics

Hands-On Leadership

Commitment to Quality & Safety

SHUTDOWNS SUPPORT

Specialised SMP Services

Fast, Reliable Workforce

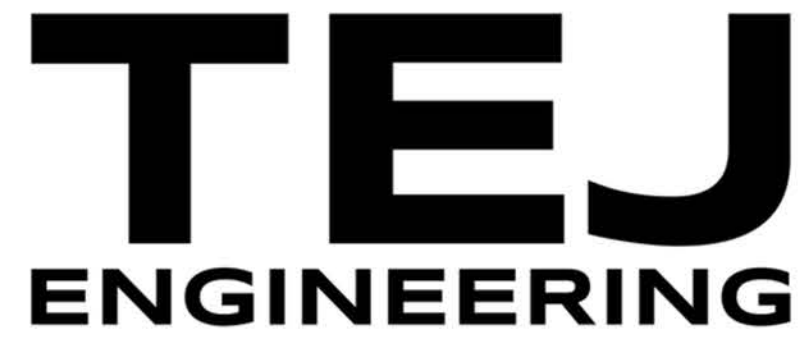

Integrated Supply & Logistics

Optimised Scheduling & Execution

Safety & Compliance

Integration with Supply & Logistics

LABOUR HIRE

**Skilled & Experienced
Workforce**

**Rapid Mobilisation &
Flexible Workforce
Solutions**

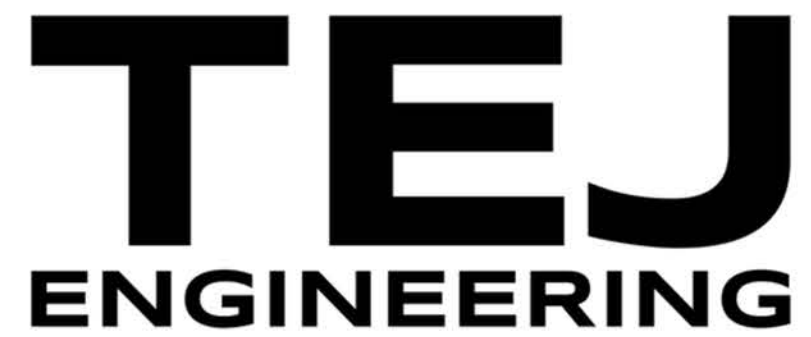

**Workforce Accountability &
Performance Tracking**

The TEJ Engineering Labour Hire Advantage

- ✓ **Reduce downtime & cost overruns**
- ✓ **Ensure compliance with safety & industry standards**
- ✓ **Deliver reliable, high-performing professionals & tradespeople**
- ✓ **Enhance productivity & efficiency on-site**

At TEJ Engineering, we understand that a project's success depends on the quality, reliability, and experience of its workforce. That's why we offer comprehensive labour hire solutions, providing both professional and blue-collar personnel to meet the dynamic demands of construction, maintenance, and shutdown projects across mining, oil & gas, infrastructure, renewable energy, and heavy industries.

NDT

**Comprehensive Integrity
Assessment**

**Certified Technicians &
Advanced Methods**

**Rapid Deployment & Reliable
Reporting**

TEJ Engineering provides Non-Destructive Testing (NDT) services to verify material integrity and compliance without causing damage, supporting safe and efficient operations.

JET INDUSTRIAL SUPPLIES – YOUR
COMPLETE PROJECT SUPPLY PARTNER

JET INDUSTRIAL SUPPLIES IS THE TRUSTED PROCUREMENT AND SUPPLY PARTNER FOR TEJ ENGINEERING, PROVIDING END-TO-END INDUSTRIAL SUPPLY SOLUTIONS FOR PROJECTS OF ANY SCALE. FROM ESSENTIAL PPE AND SAFETY SITE GEAR TO STUDS, BOLTS, AND SPECIALISED CONSUMABLES, JET ENSURES YOUR SITE IS FULLY EQUIPPED WITH EVERYTHING NEEDED TO KEEP OPERATIONS RUNNING SMOOTHLY.

BEYOND SUPPLY, JET INDUSTRIAL SUPPLIES OFFERS A COMPREHENSIVE PROCUREMENT AND MATERIALS MANAGEMENT SYSTEM, DESIGNED TO MINIMIZE CONSTRUCTION MATERIAL WASTAGE AND PREVENT UNNECESSARY COST ESCALATIONS. WHETHER IT'S LOGISTICS, INVENTORY TRACKING, OR MATERIAL COORDINATION, JET HANDLES IT ALL ENSURING SEAMLESS SUPPLY CHAIN EFFICIENCY.

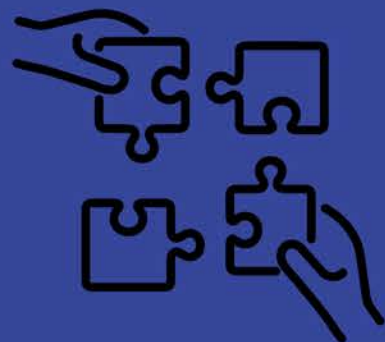

WHY?

TEJ ENGINEERING AND JET INDUSTRIAL SUPPLIES FORM A SEAMLESS PARTNERSHIP, DELIVERING END-TO-END SOLUTIONS FOR CONSTRUCTION, MAINTENANCE, AND INDUSTRIAL PROJECTS.

Our integrated approach eliminates supply chain bottlenecks, minimises material wastage, and enhances project efficiency, allowing clients to focus on execution while we handle the critical details. Whether it's skilled labor, precise fabrication, quality-controlled welding, or a streamlined procurement system, TEJ and JET provide the reliability, expertise, and accountability needed to deliver success

POWERING YOUR PROJECTS

Our Mission

COMPLETE INDUSTRIAL SUPPLY SOLUTIONS

From PPE, safety gear, tools, and consumables to studs, bolts, and fasteners for construction projects.

PROCUREMENT & MATERIALS MANAGEMENT

Reducing material wastage and preventing unnecessary cost escalations through an efficient supply system.

LOGISTICS & INVENTORY MANAGEMENT

Ensuring timely delivery, material tracking, and on-site coordination for seamless operations.

CUSTOM WELDING CONTAINERS

Designed to maintain strict quality control and provide secure, organized workspaces for welding teams.

END-TO-END PROJECT SUPPORT

Handling everything from sourcing and procurement to on-site material distribution and control.
